

MPM Compensation

Speaking of amazing income... let's look at the money that can be generated when you give away Shopping Malls to 10 people who then give away 10 Shopping Malls of their own – all the way down through 9 Tiers.

Your own Mall occupies Shopping Tier 1. The 10 people you give it away to will be on your second Shopping Tier. They get 10 each which puts 100 people on your 3rd Shopping Tier and now you have 111 people you are receiving shopping rebates from. But you're just beginning. Those 100 people each give away 10 Shopping Malls and now you're at 1000 on Tier 4, which grows into 10,000 on Tier 5. Those 10,000 will all be eager to have their own success, so when they give away their 10 Shopping Malls, you have 100,000 shoppers on your 6th Tier. Tier 7 grows to 1 Million and then the numbers just continue to climb.

Okay, let's be realistic. Will you create a perfect 10 X 9 Power Mall System? Probably not. Life just doesn't work that way. But what if only 10% of it happened? Or 20%? Or 30%? Or more?

First, let's look at the rebate income you will generate from the shopping in the MY POWER MALL System. We created the system to create exciting income for people within the first 4 Shopping Tiers, knowing that in most systems people don't go any deeper than that. I believe they will here, but still, I want everyone to make exciting money quickly.

Every purchase will earn a rebate from the store where you shopped. The rebate % varies from store to store. In the MY POWER MALL system, you will earn 7% of the shopping rebate from your own personal shopping. You'll earn rebates of 14% on everyone shopping on your 2nd Tier. Then it goes up to 29 % on shoppers on your 3rd tier, and an amazing 35% on those on your 4th tier! Tiers 5 through 9 will pay 3% - 3% that will produce astounding income because of the number of people on those tiers.

Let's see what this looks like in dollar amounts for a one month period. Remember we're working with the figure of someone spending \$150.00. While each store pays out differently on purchases, we already know what the average is so we're working from that figure.

Tier 1 – \$.69

I can hear you now. "Ginny, are you really saying I could spend \$150 and only make 69 cents?" Yes, that's what I'm saying. But let me make sure you understand. A small % is paid out on your Personal Mall so that you can make a much higher % - meaning much more money - when you have hundreds and thousands of people shopping further below you. Hang with me until you see all the numbers. You're only 3 levels away from \$3500 a month!

Tier 2 – \$1.41 X 10 Malls = \$14.10

Still not exciting but you're building a solid foundation and you really haven't done very much, have you?

Tier 3 - $\$2.85 \times 100 = \285 a month

Ah... This is enough to sit up and take notice. And remember, MY POWER MALL hasn't cost you anything and you're not selling anything!

Tier 4 - $\$3.56 \times 1000 = \3560.00

Whoa! Just 3 tiers below you and you're already making over \$3500 a *month*? And just from people buying things they were going to buy anyway on their Shopping Mall? I think it's fair to say this amount would change most people's life!

Tier 5 - $\$.28 \times 10,000 = \2800.00

You've taken a little dip, because of the lower %, but you're also at a total of over \$6600.00 a month. How does *that* feel? I know you're eager to see what happens on the next Tier.

Tier 6 - $\$.28 \times 100,000 = \$28,000$ a month

Whoa! Now we're talking serious income! And at the risk of your thinking I'm nuts I'll let you see what could happen from your shopping rebates in Tier 7.

Tier 7 - $\$.28 \times 1,000,000 = \$280,000$

I think that deserves a double WOW! And, no, I'm not going to show you what could happen on the next two levels because I know you're already having a hard time believing me. You can pull out a calculator, but the important thing to know is that the MY POWER MALL System has been created to generate tremendous income for EVERYONE!

Tier 8 - HUGE 😊

Tier 9 - HUGE 😊

If you add up the dollar amounts from the first 7 Shopping Tiers you get a total of \$313,859.79 in shopping rebates! But for those who have a hard time wrapping your mind around those kinds of figures, let's look at what can be created in a much shorter period of time.

The total from just 3 Tiers is \$299.79 (almost \$300 a month)

The total from only 4 tiers is \$3,859.79 (almost \$3900 a month)

And for those who have a hard time believing the \$313,000 figure, what if only 10% of all 7 tiers happened? That would still generate \$31,385.97 (over \$31,000) a month. It grows exponentially when you add in tiers 8 & 9. Would just 10% of my projections make your life better? And what if you gave it to 15, or 20, or 30, or more people? What would THAT do?

I think it's important, though, to show you what could happen if you did far less. For people who have tried, only to fail many times, the idea of getting 10 people to do *anything* might be more than they can fathom. I understand. So what would

happen if you only found 5 people who wanted their own FREE shopping Mall? Let's take a look:

- Tier 1 - \$.69
- Tier 2 - \$1.41 X 5 Malls = \$7.05
- Tier 3 - \$2.85 X 25 = \$71.25
- Tier 4 - \$3.56 x 125 = \$445
- Tier 5 - \$.28 X 625 = \$175.00
- Tier 6 - \$.28 X 3125 = \$875.00
- Tier 7 - \$.28 X 15,625 = \$4375.00
- Tier 8 - \$.28 X 78,125 = \$21,875.00
- Tier 9 - \$.28 X 390,625 = \$109,375

\$627.00 a month for 5 Tiers.

It jumps to \$1502.74 on your 6th Tier, \$5877.74 on your 7th Tier, over \$27,000 a month on your 8th Tier, and over \$135,000 a month on your 9th Tier.

I hope you're seeing that no matter who you are, or where you live, YOU can succeed with MY POWER MALL!

* * * * *

Now, when you're looking at your Mall, you'll see that each store pays a certain %. They're certainly not all the same. If you put your cursor over the % from each store there is a little box that pops up and says "This Rebate will be paid out through the 9 level Rebate System." If you look at something and say, "Geesh, that's not very much," look back up at the numbers I just shared with you. ***A little bit from a lot of people can become VERY exciting!***
